

Spin A Web Design, Inc.

**JOB TITLE:** Web Designer and Developer

### **JOB DESCRIPTION**

We are looking for an experienced web developer to be responsible for coding, modifying and functionality of website projects. You will build mobile websites from a preset design to completion. You would be involved with the graphical aspects of the websites - how the site works and looks. You would also maintain and update existing sites. MUST work out of Jamestown, NC office.

### **RESPONSIBILITIES**

Create visually appealing sites that feature user-friendly design and clear navigation  
Apply your expertise to technical coding problems.

Candidate must have a strong understanding of cross-browser compatibility, web functions and standards.

The position requires ongoing communication with colleagues.

Expertise and hands on experience with HTML, HTML5, CSS, CSS3, PHP, JavaScript, JQuery and WordPress, E-Commerce.

Grasp of security principles and how they apply to E-Commerce applications.

Create websites using current developmental practices

Research new and innovative ways to improve existing processes.

Stay plugged in to emerging technologies/industry trends and apply them into operations and activities

### **SKILLS/REQUIREMENTS**

- Associates or Bachelor's degree in computer science, graphic design or a related field, preferred
- Website coding experience
- Familiarity with Microsoft Office and Adobe Creative Suite
- Strong organization and attention to detail
- Work independently and as a team
- Learn and master diverse web technologies and techniques and meet deadlines
- Ability to edit images
- Working knowledge of Illustrator, Photoshop, Fireworks, MS Word, and Excel
- A team player who enjoys working with others to solve problems and share knowledge

### **TO APPLY**

All candidates should submit their resume and a portfolio link or attachment of 3-5 design samples (5 MB or less) with their application to [hr@spinawebdesigns.com](mailto:hr@spinawebdesigns.com)
